EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the change and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 15 (currently amended), page 7, line 1, "the underfill material" should be --the no-flow underfill material--

REASONS FOR ALLOWANCE

2. Claims 1-18 are allowed.

3. The following is an examiner's statement of reasons for allowance: None of the references of record teaches or suggests as cited in claims 1, 9, 15: improving wetting and flow characteristics of a no-flow underfill material by preheating the no-flow underfill material; assembling a construction including a carrier substrate, a microelectronic die having an integrated circuit, and the no-flow underfill material between the carrier substrate and the microelectronic die, the wetting characteristics having been improved before the construction, including the carrier substrate, the microelectronic die and the no-flow underfill material, is assembled; reflowing interconnection elements between the carrier substrate and the microelectronic die of the construction by heating and subsequently allowing the interconnection elements to cool; and curing the no-flow underfill material of the construction by heating the no-flow underfill material for a period of time sufficient to harden the no-flow underfill material (as cited in claims 1, 9); assembling a construction including a carrier

substrate, a microelectronic die having an integrated circuit, and a no-flow underfill material between the interconnection elements; subsequently heating the no-flow underfill material to a temperature below a reflowing temperature of the interconnection elements; subsequently connecting the microelectronic die with a chuck; and reflowing the interconnection elements by heating the interconnection elements while the microelectronic die is held with the chuck (as cited in claim 15).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
